

FEATURES SUMMARY

MLS Integration

Link between properties on the MLS and self-scheduling on the SentiKey[®] Real Estate website and app.

Self-Scheduling

Access the scheduling page and additional features on the SentiKey[®] Real Estate website and app.

Showing Request Notifications

Agent-defined notification settings to accept, decline, or propose a new time.

Showing Instructions

Set up and receive defined instructions for accessing the property, including alarm codes. If available, showing instructions from the MLS will be pulled and displayed automatically.

Team Schedules

Easily search for team members and view or manage their showings and calendars.

Showing Feedback

Automatically send and track feedback requests after a showing.

Automated Acceptance Scheduling

Enable your clients to automatically accept showing requests that fall within defined timeframes.

Training & Support

Access online tutorials and how-to videos or contact live support.

Multi-Showing Scheduling & Routing

Receive itinerary and directions for the most efficient route based on scheduled times, property address, and starting location.

Showing Service Functionality Within the SentiKey[®] Real Estate App

Access the scheduling dashboard and additional features through the app.

Client Roster

Manage current and previous clients, with the ability to assign them to a showing or listing and receive requests and confirmation status.

Listing Activity Report

View and export the appointments; 7-day and 30-day trends; feedback; and graphs depicting overall rating and interest level rating.

SentiKey[™] Assistant for Mobile (SAM[™])

Leverage AI to help automate your scheduling tasks.

ClientConnect App

Give your clients the ability to share calendars, their roster of properties, and give feedback on properties from a mobile app of their own.

Client Activity Tracking

Manage your time easier by tracking what stage your clients are at for each home they're interested in buying.

Client Calendar

Share a schedule or itinerary with your client (exportable to personal calendar).

Client Feedback

View and manage feedback from clients.
